Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 January 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-40 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 1-28 is/are allowed.
- 6) ☒ Claim(s) 29-40 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.

1. Claims 29-40 are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the patent upon which the present reissue is based. See *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue which was not present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) relates to subject matter that applicant previously surrendered during the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251, and the broader scope surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application.

In claim 29, 34, 39 and 40, the subject matter of claim 1 of the tie down bracket "placed between a trim adjustment rack of the motor and the transom of the boat" has been deleted. Additionally, in claims 29-40 the subject matter of claim 18 such as a support "having a V-frame with a cradle at its apex which is rotatably mounted with respect to the motor such that when the motor is in an up position the support can rotate about its mounting point to contact and support the motor in the cradle" has been deleted.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3617

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 29-33 and 37-40 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Weiss. Weiss discloses an outboard motor support device for securing an outboard motor to a transom 14 of a boat including a tie down bracket (including 20, 24, 28) secured to the transom, a v-shape support 22 rotatably mounted with respect to the motor such that when the motor is in an up position the support can rotate about its mounting point to contact and support the motor and tie down strap 30 which passes behind the motor and is secured to the rigid tie down bracket (at 28).

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 34-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Weiss in view of Stanley. Weiss does not disclose the support 22 pivoting about a horizontal axis. Stanley teaches a support 5 pivoted about a horizontal axis (at 3). It would have been obvious to a person of ordinary skill in the art at the time the invention was made to form the support of Weiss to pivot about a horizontal axis as taught by Stanley for improved use during use in shallow water.

6. Claims 1-28 are allowed.

7. Applicant's arguments filed January 27, 2003 have been fully considered but they are not persuasive.

Applicant alleges that the subject matter of claims 29-36, 39, and 40 do not recapture claimed subject matter. However, looking to the prosecution history arguments and changes to the claims made in an effort to overcome a prior art rejection the claims clearly contain recaptured subject matter. For example, in claim 29, 34, 39 and 40, the subject matter of claim 1 of the tie down bracket "placed between a trim adjustment rack of the motor and the transom of the boat" has been deleted. Applicant alleges that claim 18 shows that the subject matter is not recaptured. However, claim 18 added other limitations not now in the claims 29-40, such as, a support "having a V-frame with a cradle at its apex which is rotatably mounted with respect to the motor such that when the motor is in an up position the support can rotate about its mounting point to contact and support the motor in the cradle" to overcome the prior art.

Additionally, Applicant alleges that the Weiss reference does not meet all of the claimed limitations. However, Weiss clearly discloses all of the claimed limitations including an outboard motor support device for securing an outboard motor to a transom 14 of a boat including a tie down bracket (including 20, 24, 28) secured to the transom, a support 22 rotatably mounted with respect to the motor such that when the motor is in an up position the support can rotate about its mounting point to contact and support the motor and tie down strap 30 which passes behind the motor and is secured to the rigid tie down bracket (at 28). Additionally, Weiss clearly discloses a v-shape support 22 rotatably mounted with respect to the motor in a position above a bottom edge of the transom (note Figure 1, for example).

8. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 29-40 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
